WHAT IS POMO*AID*?

PomoAid is an innovative web application designed to enhance your productivity and focus. Whether you're preparing for an exam, tackling a work deadline, or simply looking to boost your efficiency, PomoAid offers a suite of features to help you achieve your goals.

✳ WELCOME PAGE :

The welcome page serves as a friendly introduction to the PomoAid platform, setting the tone for the user experience. Its primary goal is to attract users, inform them about the benefits of the tool, and motivate them to start their productivity journey with a clear call to action.
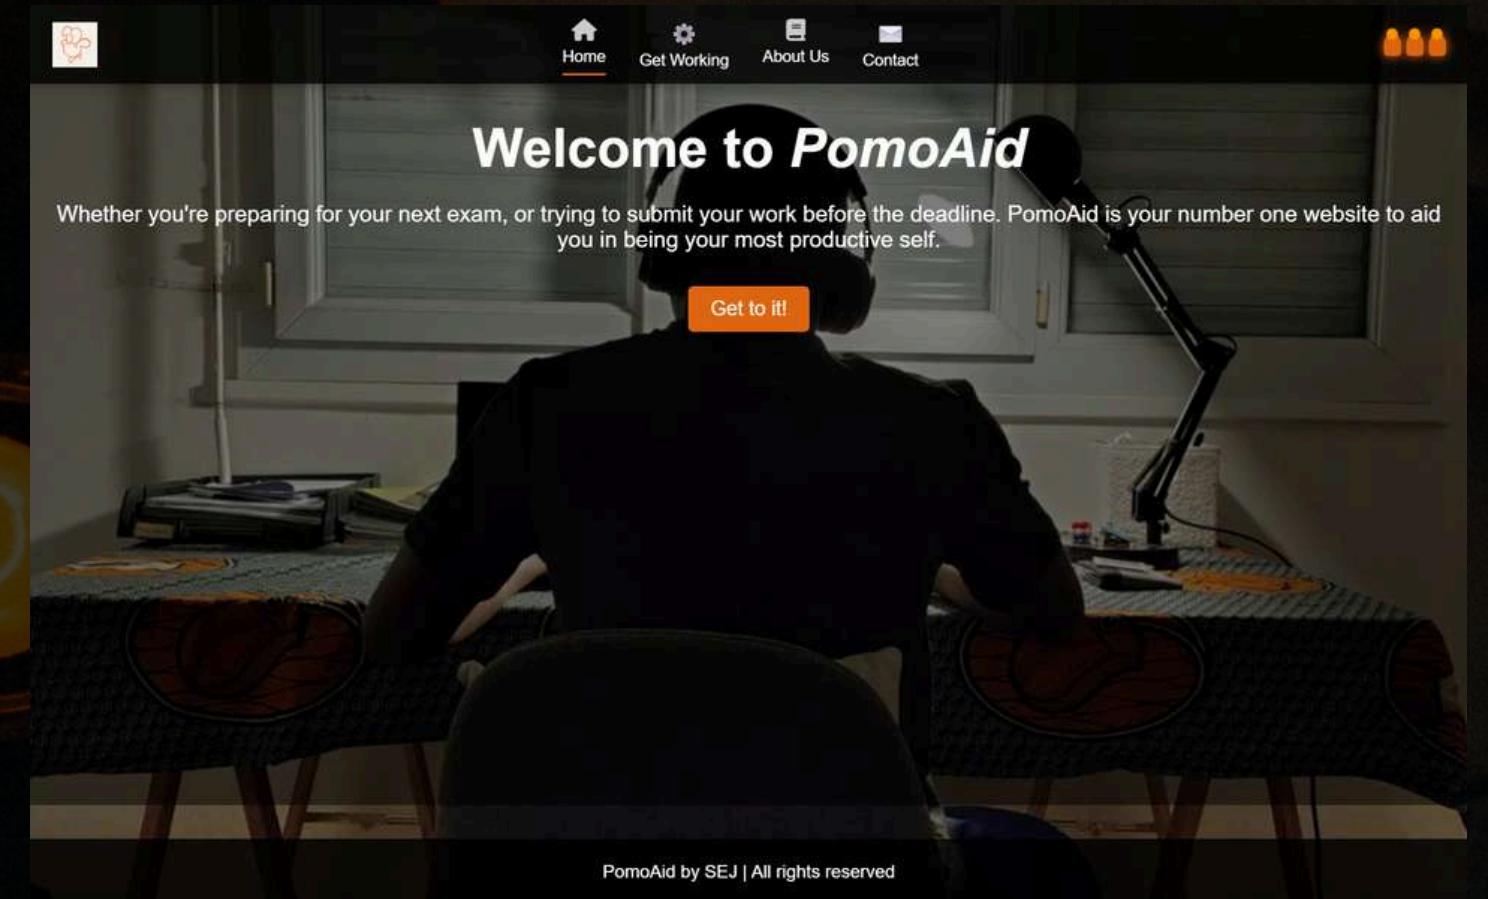

"Get to it!" Button :

This button directs users to the main page, where they can access the full collection of tools and features offered by PomoAid. This button is designed to be prominent, inviting users to take the next step in their productivity journey.

Navigation Bar:

The page includes a dynamically generated navigation bar that allows users to easily access different sections of the website, such as Home, About Us, and Contact Us.
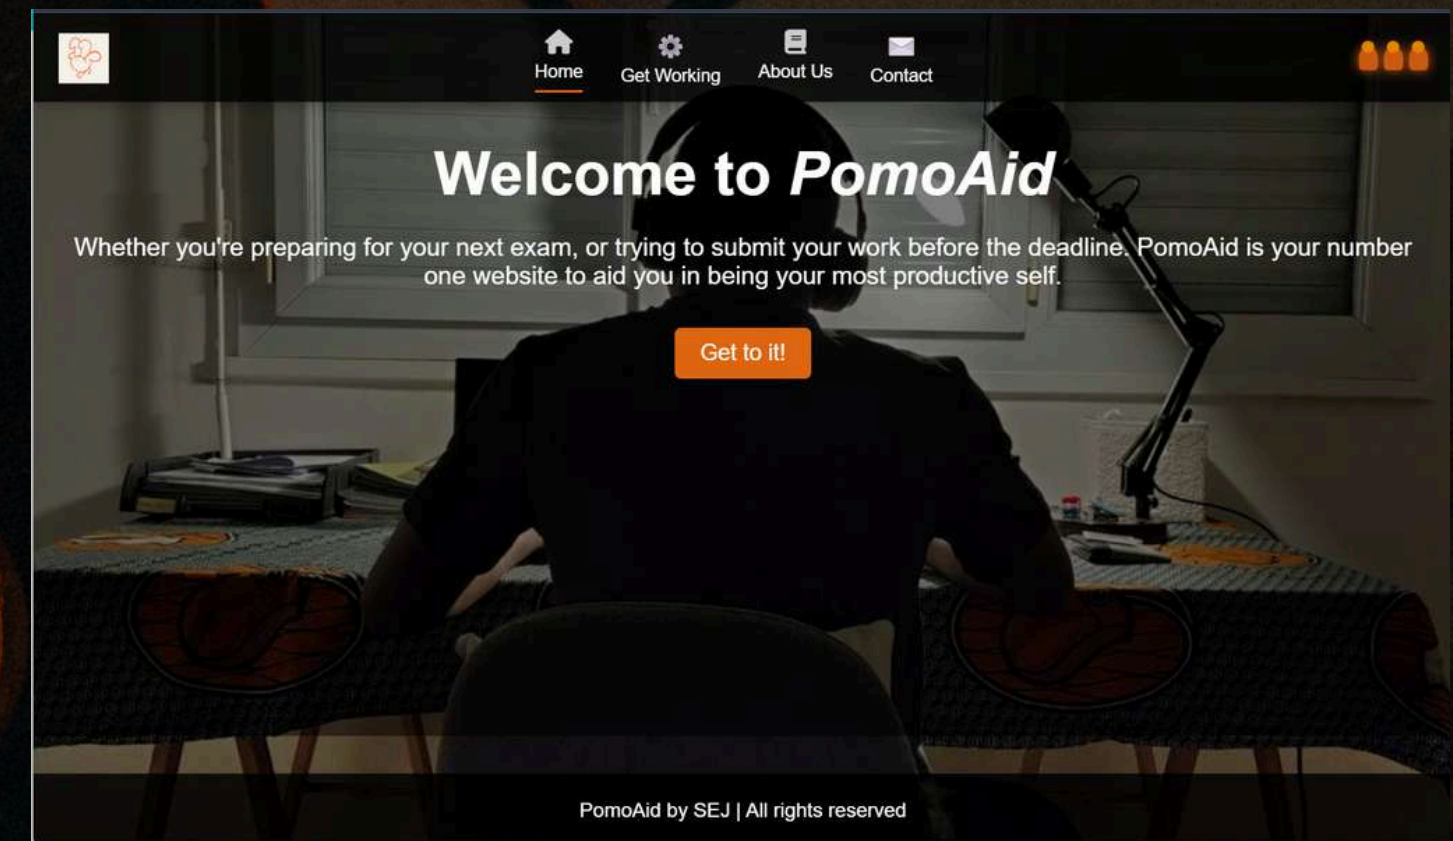

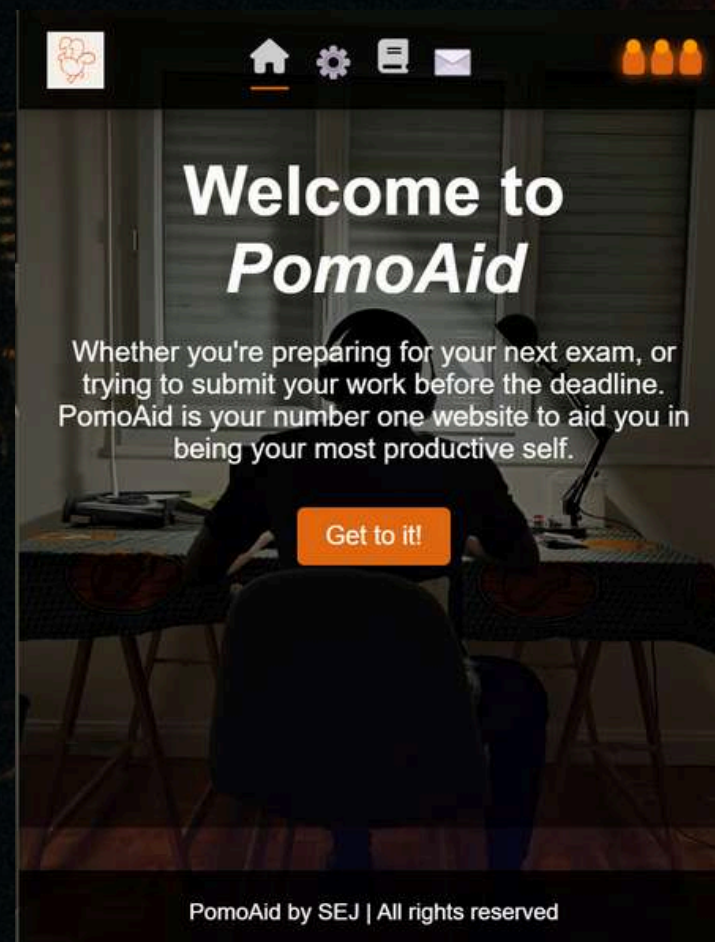

HOW WELCOME PAGE ADAPTS TO DIFFERENT SCREEN SIZES :

✳ WELCOME PAGE VALIDATION :

✳ MAIN PAGE :

The main page of PomoAid is designed to be a comprehensive productivity tool, integrating multiple features that cater to different aspects of work and study. Its user-friendly design and engaging elements aim to motivate users to focus, stay organized, and maximize their productivity.
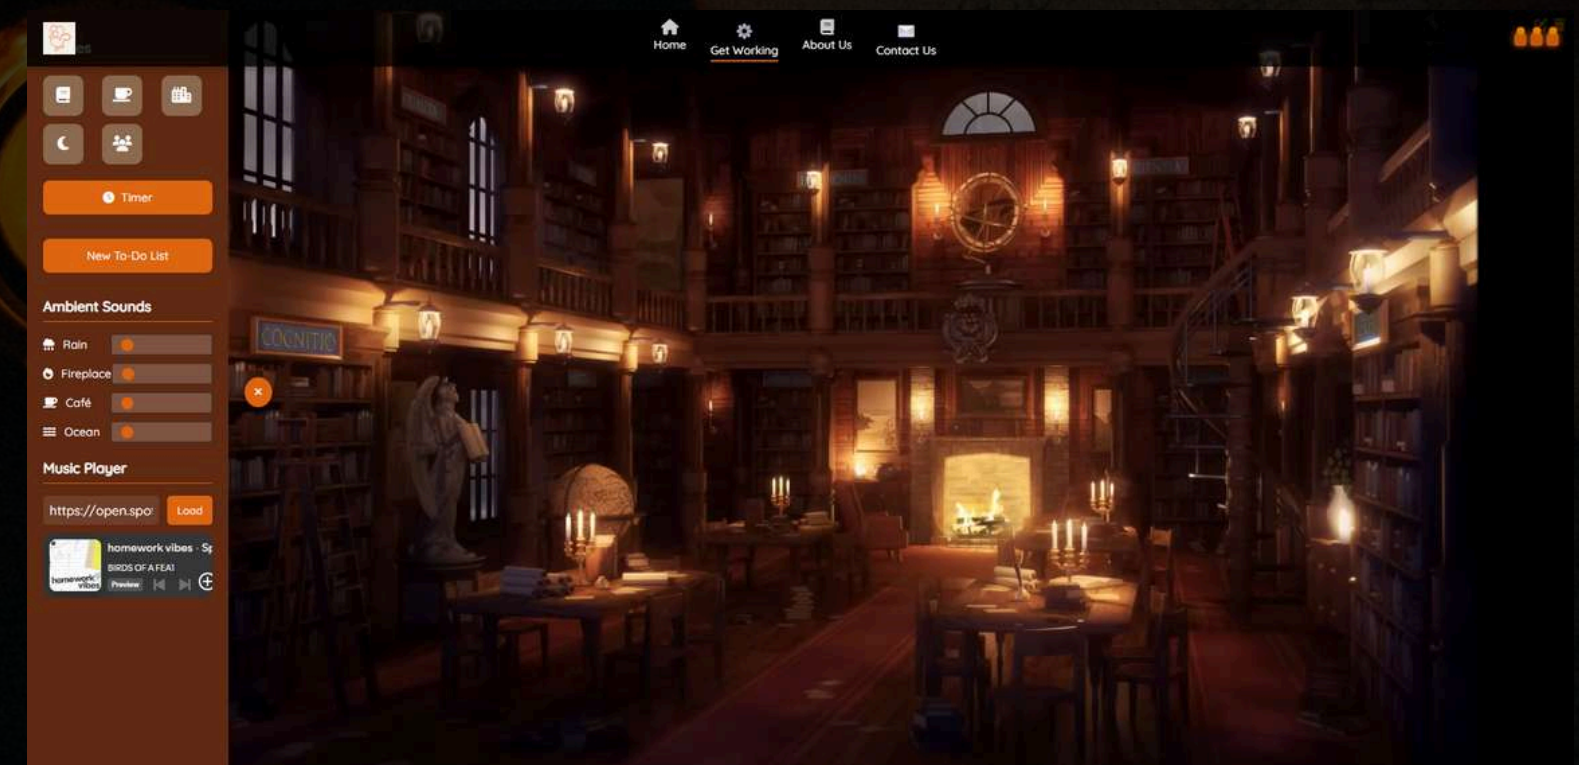

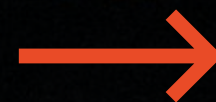

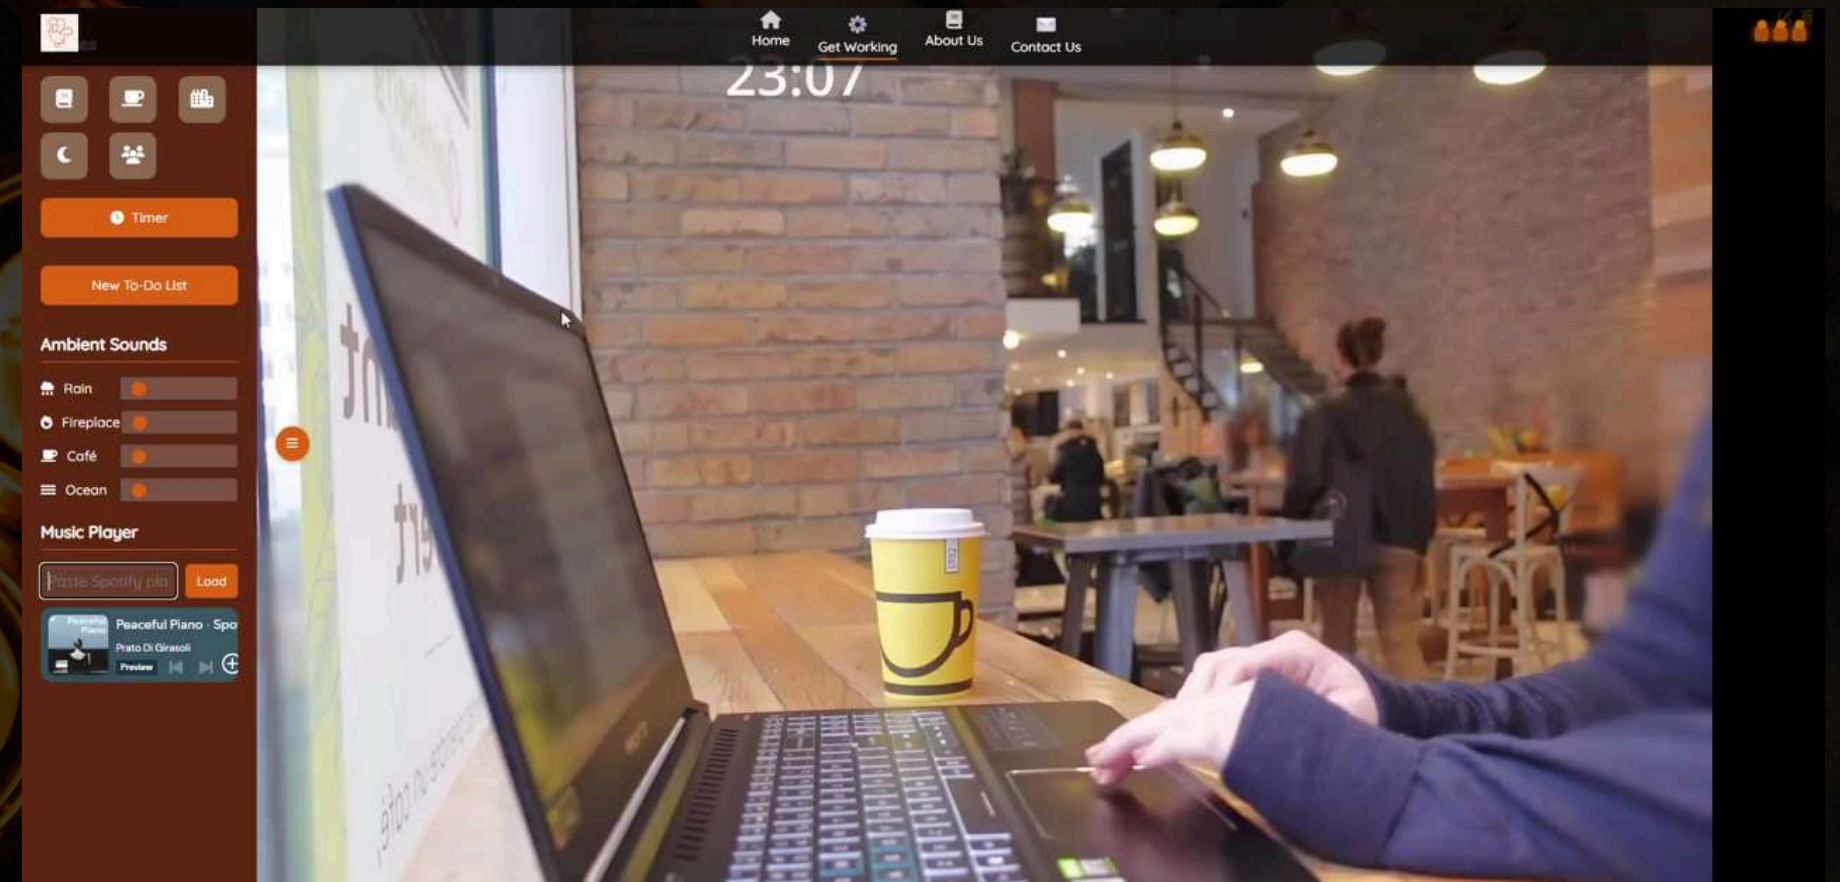

✳ MAIN PAGE :

Spaces Backgrounds

The main page features backgrounds for certain environments, some of which are embedded YouTube videos, providing an engaging atmosphere. These videos autoplay and are initially muted, creating an immersive environment without distractions.

User Interaction Features

- Tooltips: Provide additional information when hovering over icons, enhancing usability.

- Streak Counter: which are in the Navigation bar Encourages daily use by tracking the user's engagement with the app.
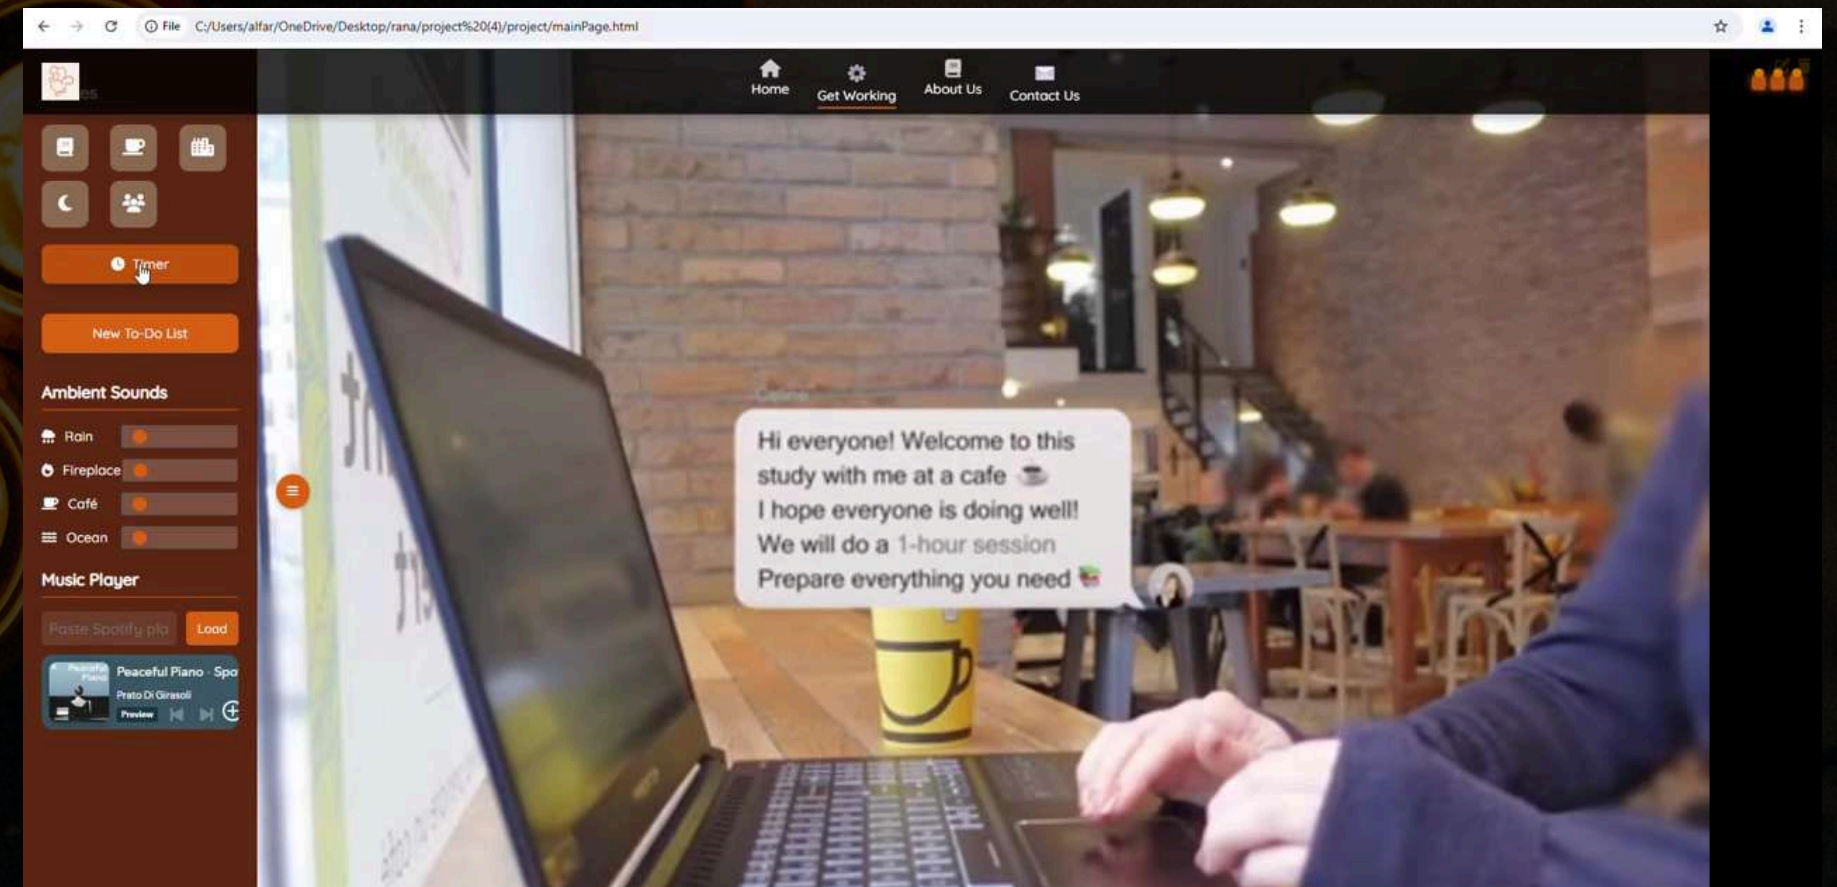

* MAIN PAGE :

Sidebar
A collapsible sidebar allows users to access different spaces (like Library, Café, City, Anime, and Study with Me) through intuitive icons. This sidebar also contains sound controls for ambient sounds and a music player.

Pomodoro Timer Widget
A Pomodoro timer widget enables users to manage their work sessions effectively. Users can customize work and break durations, and the widget is draggable for convenience.

Todo Lists:
Users can create and manage to-do lists, allowing them to keep track of tasks in a structured manner. This feature includes options for adding, editing, and deleting tasks.
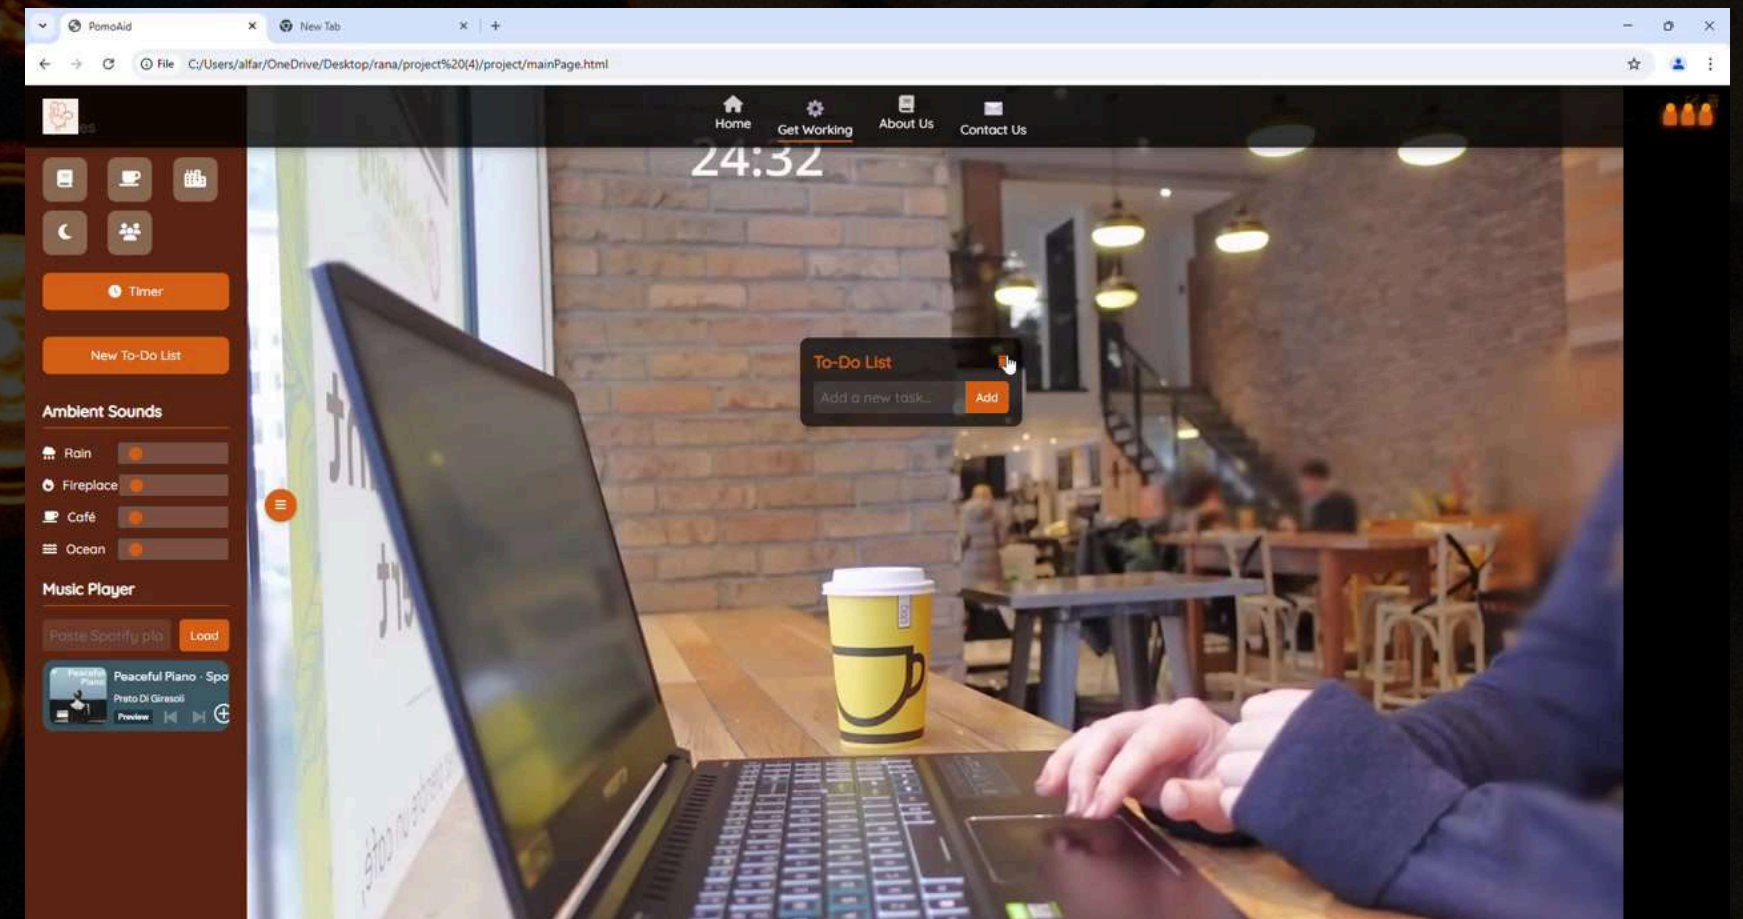

MAIN PAGE :

Sound Controls

The sidebar includes controllers for various ambient sounds (like rain, fireplace, café, and ocean), enhancing the work environment.

Music Player

Integration of a Spotify music player allows users to listen to curated playlists while they work, further enriching the overall experience.

✳ ABOUT US VALIDATION :

CONTACT US PAGE

The contact us page is a page that allows users to easily reach the developers and contact them for any inquiries they might have regarding PomoAid

Contact Form

The main feature is a contact form that allows users to submit their inquiries or feedback. The form includes several fields:

- First Name and Last Name: Required fields to identify the user.
- Gender: A dropdown selection for users to specify their gender.
- Mobile Number: A field for contact that requires a valid 10-digit format.
- Date of Birth: A date picker for users to provide their birth date.
- Email Address: A required field for users to enter their email, ensuring that responses can be sent back.
- Language of Communication: A dropdown selection for preferred language.
- Message: A textarea for users to write their message or inquiry.

✳ CONTACT US PAGE

The contact us page is a page that allows users to easily reach the developers and contact them for any inquiries they might have regarding PomoAid

Contact Information

Alongside the form, there is a section titled "Reach Us," which provides direct contact details for the team:

- Email Address: A dedicated email (e.g., contactus@gmail.com) for inquiries.
- Phone Number: A contact number (+966 59 180 3103) for direct communication.

input validation

The input validation on the Contact Us page ensures that the data submitted by users is accurate and meets specific criteria

CONTACT US PAGE

The contact us page is a page that allows users to easily reach the developers and contact them for any inquiries they might have regarding PomoAid

EmailJS Integration

- It uses <u>EmailJS</u> to send the form data directly to an email address without server-side coding , User fills in the form (name, email, message...) ,presses Submit, the browser uses EmailJS to send that info to your email
- it sends 2 emails :
  1. A notification email to the developer with the user's submitted data.
  2. A thank-you email to the user confirming receipt of their message.

CONTACT US VALIDATION :

✳ DATABASE

It's a SQLite database that stores key user data for your productivity web app.
It currently supports 3 major features

In the contact us page there are 1 save / load first being saving and
loading contact

✳ DATABASE

It's a SQLite database that stores key user data for your productivity web app.
It currently supports 3 major features

In the main page there are 2 save / load first one being saving and
loading Streaks :

• In the end of the main page navigation bar you will see a streaks counter which
counts the users activity daily if the user enters the website tow days in a row the
counter will give the user one streak so, to keep the user motivated the streaks
needs to be saved.

• Pomodoro Timer Logs : When a work or break session finishes, the app records (type,
duration, timestamp) This is super useful for:
  • Weekly productivity reports
  • Charts of time spent focused
 • Rewarding users for hitting time goals
